Annual Index

SUBJECT Index 2011

A

ABO compatibility: and component therapy in blood transfusions, April 235

ABO discrepancy: and hemolytic anemia post liver transplant due to passenger lymphocyte syndrome, March 137

Accreditation: strengthening public laboratory service in sub-Saharan Africa, a Uganda case study, Dec 723

Acquired immunodeficiency syndrome (AIDS): setting up a standardized peripheral blood mononuclear cells processing laboratory to support multi-center HIV/AIDS vaccine and intervention trials, Dec 711. *See also* Human immunodeficiency viruses (HIV)

Actin: "Luminaries," Nov 696

Acyclovir: for herpes simplex virus infection, Aug 455, 456

ADAMTS13: in thrombotic thrombocytopenic purpura presenting with pancreatitis, June 329

Adenocarcinoma: chemerin expression correlates with a favorable prognosis in patients with non-small cell lung cancer, Sept 553; discrimination analysis of mass spectrometry proteomics for detection of lung, June 344

Adrenocorticotropic hormone (ACTH): and testicular tumor due to adrenogenital syndrome, Oct 584

Adrenogenital syndrome: testicular tumor due to, Oct 584

Africa: bacterial flora of fomites in a Nigerian multi-disciplinary intensive care unit, July 411; CD4-T-lymphocyte reference ranges in Uganda, Feb 94; screening for intestinal parasites in elective surgery patients in endemic areas, Aug 469; setting up a standardized peripheral blood mononuclear cells processing laboratory to support multi-center HIV/AIDS vaccine and intervention trials, Dec 711; strengthening public laboratory service in sub-Saharan, a Uganda case study, Dec 719

AIDS. *See* Acquired immunodeficiency syndrome (AIDS)

Alkaline phosphatase: in seminoma, July 388, 390

Allergy. *See* Hypersensitivity

Alloantibodies: antibody screening in patients with thalassemia major, Oct 618; delayed hemolytic transfusion reaction without detectable autoantibodies or, and possible role of phosphatidylserine exposure on donor RBCs, Nov 653

Alloantigens: clinical applications of platelet antibody and antigen testing, Nov 687

Alveolitis, fibrosing: in sarcoidosis, Sept 516

American Society for Clinical Pathology (ASCP): vacancy survey for 2011, April 199, July 442(letter); wage survey for 2010, March 141

Amino aspartate transferase: in seminoma, July 388, 390

Amphotericin B: detection of antifungal resistance in *Candida* species causing vulvovaginal candidiasis, Feb 87

Amplification refractory mutation system, polymerase chain reaction-: and incidence and association of 563 C/T Mediterranean and the silent 1311C/T G6PD mutations in G6PD-deficient Egyptian children, June 355

Anatomic pathology: ASCP vacancy survey for 2011, April 203; digital image analysis section added to Anatomic Pathology (ANP) checklist, Oct 588

Androgens: and fertility assessment, Jan 48

Andrology: and fertility assessment, Jan 41

Anemia: autoimmune hemolytic, Oct 581; hemolytic, and ABO discrepancy post liver transplant due to passenger lymphocyte syndrome, March 137; red cell histogram and the dimorphic red cell population, May 300, 305; thrombotic thrombocytopenic purpura presenting with pancreatitis, June 329. *See also* β-Thalassemia

Angiotensin-converting enzyme: in systemic sclerosis, Sept 565

Annexin V: testing for *in vitro* phosphatidylserine exposure on donor RBC using, Nov 654

Anthrax, gastrointestinal: in New Hampshire, a 2009 case report, June 363

Antibodies: antibody screening in patients with thalassemia major, Oct 618; clinical applications of platelet antibody and antigen testing, Nov 687; and component therapy in blood transfusions, April 235. *See also* Autoantibodies; Monoclonal antibodies

Anticoagulants: accurate international normalized ratio using local verification and calibration, March 176

Anti-double-stranded DNA: in autoimmune hepatitis diagnosis, April 227

Antigens: clinical applications of platelet antibody and antigen testing, Nov 687

Antimicrobial susceptibility testing: accuracy of commercial testing method for measuring vancomycin MIC against methicillin-resistant *Staphylococcus aureus* (MRSA), Aug 473; detection of antifungal resistance in *Candida* species causing vulvovaginal candidiasis, Feb 87; *Methods for Antimicrobial Dilution and Disk Susceptibility Testing of Infrequently Isolated Fastidious Bacteria; Approved Guideline—Second Edition,* June 374

Anti-Müllerian hormone: and fertility assessment, Jan 47

Antineutrophil cytoplasmic antibodies: in autoimmune hepatitis diagnosis, April 227

Antinuclear antibodies: in autoimmune hepatitis diagnosis, April 224, 227

Antiviral agents: for herpes simplex virus and human immunodeficiency virus infections, Aug 452

Apheresis: in component therapy in blood transfusions, April 236, 238

Apolipoprotein A5 gene: association study of -1131T>C single nucleotide polymorphism of, with coronary artery disease, June 350; a single nucleotide polymorphism -1131T>C in the, modulates the levels of triglyceride, March 171

Apoptosis: of endothelial cells in systemic sclerosis, Sept 565

Application of a Quality System Model for Laboratory Services; Approved Guideline (GP26-A), March 152

Arsenic: testing for toxic elements, Dec 736

Ascaris lumbricoides: screening for intestinal parasites in elective surgery patients in endemic areas, Aug 469

Ascitic fluid: evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 396

Asthma: eosinophil cationic protein in children with respiratory allergies, July 419

Astrocytoma: a collision tumor, primary central nervous system B-cell lymphoma and anaplastic, June 324

Atherosclerosis: association between estrogen receptor-α PvuII and XbaI gene polymorphisms with extracranial carotid stenosis, Nov 663

Autoantibodies: antibody screening in patients with thalassemia major, Oct 618; in autoimmune hepatitis, April 224; as biomarkers in cancer, Oct 623; concentration of thyroglobulin and thyroglobulin-specific autoantibodies in patients with differentiated thyroid cancer after treatment with radioactive iodine 131, Jan 27; delayed hemolytic transfusion reaction without detectable alloantibodies or, and possible role of phosphatidylserine exposure on donor RBCs, Nov 653; in systemic sclerosis, Sept 567

Autoantigens: clinical applications of platelet antibody and antigen testing, Nov 687

Autoimmune diseases: autoimmune hemolytic anemia, Oct 581; hepatitis, April 224; with sarcoidosis, Sept 519; systemic sclerosis, Sept 563, 564; thrombocytopenia, Nov 687

Automation: automated *vs* manual lymphocyte counts in chronic lymphocytic leukemia patients, Sept 545; body fluid application on the Sysmex XE-5000 hematology analyzer, July 395; building and validating an autoverification system in the clinical chemistry laboratory, Nov 668; PREVI Color Gram staining system on positive blood culture samples, July 414

Autoverification systems: building and validating in the clinical chemistry laboratory, Nov 668

Avian influenza (H5N1): highly pathogenic virus detected in peripheral blood mononuclear cells and stool of a patient, May 310; update, May 291

B

Bacillus alvei: bacterial flora of fomites in a Nigerian multi-disciplinary intensive care unit, July 411

Bacillus anthracis: gastrointestinal anthrax in New Hampshire, a 2009 case report, June 363

Bacteria: and component therapy in blood transfusions, April 238; flora of fomites in a Nigerian multi-disciplinary intensive care unit, July 411; gastrointestinal anthrax in New Hampshire, a 2009 case report, June 363; improved histologic identification of *Helicobacter pylori* by immunohistochemistry using a new Novocastra monoclonal antibody, Jan 35; in silico evaluation and testing of

fluorescence in situ hybridization 16S rRNA probes for *Staphylococcus aureus,* Dec 729; *Methods for Antimicrobial Dilution and Disk Susceptibility Testing of Infrequently Isolated Fastidious Bacteria; Approved Guideline—Second Edition,* June 374; PREVI Color Gram automated staining system on positive blood culture samples, July 414
B cells: in systemic sclerosis, Sept 566
Biomarkers: autoantibodies for cancer, Oct 623; and discrimination analysis of mass spectrometry proteomics for lung adenocarcinoma detection, June 344
Biopsy: core, *vs* breast excision specimens, Aug 461
Bird flu (H5N1). *See* Avian influenza (H5N1)
Bi-sulfite sequencing: *hMLH1* gene is not methylated in osteosarcoma, May 280
Bloch, Konrad: "Luminaries," June 370
Blood: testing for toxic elements with focus on arsenic, cadmium, lead, and mercury, Dec 736
Blood banking: ASCP vacancy survey for 2011, April 200; ASCP wage survey for 2010, March 146
Blood cell count: automated *vs* manual lymphocyte counts in chronic lymphocytic leukemia patients, Sept 545; hematologic markers of influenza A H1N1 for early laboratory diagnosis and treatment assessment, Oct 608, 609
Blood collection. *See* Phlebotomy
Blood cultures: PREVI Color Gram automated staining system on positive culture samples, July 414
Blood platelets. *See* Platelets
Bloodstream infections: molecular diagnostics and active screening for health care-associated infections, May 268
Blood transfusion. *See* Transfusion medicine
Blood urea nitrogen (BUN): and uremic frost, April 196
Body fluids: evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 395
Bone: *hMLH1* gene is not methylated in osteosarcoma, May 280
Brain natriuretic peptide (BNP): as a screening tool for identifying pediatric patients with congenital heart disease, Feb 75
Breast cancer: metastatic choriocarcinoma, Feb 68; standardized assessment of the HER2 status by immunohistochemistry, Aug 459
Bundling of specimens, April 246

C

Cadmium: testing for toxic elements, Dec 736
Caliendo, Angela M: on quantitative molecular testing guideline, March 183
Campbell, Sheldon M: on point-of-care testing manual, Feb 119
Cancer: autoantibodies as biomarkers in, Oct 623; "Luminaries," Nov 697. *See also* Adenocarcinoma; Breast cancer; Carcinoma; Cervical cancer; Lung cancer; Sarcoma
Candida: detection of antifungal resistance in species causing vulvovaginal candidiasis, Feb 87
Candidiasis, vulvovaginal: detection of antifungal resistance in *Candida* species causing, Feb 87
Capillary electrophoresis: false results in the detection of monoclonal components using, Oct 602
Carcinoma: CD4+CD25^{high}CD127$^{low/-}$ regulatory T cell and interleukin 2 in transitional cell, March 163; metastatic choriocarcinoma of the breast, Feb 68
Carlson, Joan: on continual quality improvement guideline, Nov 699
Carotid artery: association between estrogen receptor-α PvuII and XbaI gene polymorphisms with extracranial carotid stenosis, Nov 663
Case studies: ABO discrepancy and hemolytic anemia post liver transplant due to passenger lymphocyte syndrome, March 137; acute erythroid leukemia, Nov 644; autoimmune hemolytic anemia, Oct 581; metastatic choriocarcinoma of the breast, Feb 68; sarcoidosis, Sept 516; seminoma, July 388; significant progression of uterine cervical epithelial lesion accompanied by marked increase in 3q26 gene amplification, March 134; testicular tumor due to adrenogenital syndrome, Oct 584; Type 3 von Willebrand disease, Dec 708; uremic frost, April 196
CD4: CD4+CD25^{high}CD127$^{low/-}$ regulatory T cell and interleukin 2 in transitional cell carcinoma, March 163; CD4-T-lymphocyte reference ranges in Uganda and its influencing factors, Feb 94
CD25: CD4+CD25^{high}CD127$^{low/-}$ regulatory T cell and interleukin 2 in transitional cell carcinoma, March 163
CD127: CD4+CD25^{high}CD127$^{low/-}$ regulatory T cell and interleukin 2 in transitional cell carcinoma, March 163
Celiac disease: importance of the educational environment in the evolution of, Aug 497
Cell count: evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 395
Cell culture techniques: for influenza H5N1 virus detection, May 295
Cellular respiration: "Luminaries," Nov 694
Central nervous system: a collision tumor, primary B-cell lymphoma of, and anaplastic astrocytoma, June 324
Cerebrospinal fluid (CSF): evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 396; reversed-phase HPLC fluorimetric method for simultaneous determination of homocysteine-related thiols in different body fluids, Nov 657
Cervical cancer: significant progression of uterine cervical epithelial lesion accompanied by marked increase in 3q26 gene amplification, March 134; TNF-α gene promoter polymorphisms associated with susceptibility of, in southwest China, May 287
Chan, Yung W: on blood collection tube guideline, April 251
Chemerin: expression correlates with a favorable prognosis in patients with non-small cell lung cancer, Sept 553
Chemistry: ASCP vacancy survey for 2011, April 200; building and validating an autoverification system in the laboratory, Nov 668; testing for toxic elements with focus on arsenic, cadmium, lead, and mercury, Dec 736
Chemokines: chemerin expression correlates with a favorable prognosis in patients with non-small cell lung cancer, Sept 553; decreased circulating level in parallel with lack of associated genetic variation in southeastern Iranian post-transfusion occult HBV-infected patients, July 423
Chicago sky blue (CSB) stain: for rapid diagnosis of dermatophytosis and pityriasis versicolor, Nov 649
Children: allergen specific immunoglobulin E in children under 6 years old with total immunoglobulin E below 10 kU/L, March 158; deletion of 18p syndrome, July 436; eosinophil cationic protein in children with respiratory allergies, July 419; methylene tetrahydrofolate reductase polymorphisms and susceptibility to acute lymphoblastic leukemia in, May 275; N-terminal-pro-B-type natriuretic peptide as a screening tool for identifying pediatric patients with congenital heart disease, Feb 75; serum cystatin C accompanied by a normal serum creatinine level in pediatric patients with chronic kidney disease, Sept 549
Cholesterol: and cholesteryl ester transfer protein Taq1B (g.5454G>A) gene polymorphism in primary combined hyperlipidemia in the Egyptian population, Aug 482; "Luminaries," June 370
Cholesteryl ester transfer protein Taq1B (g.5454G>A) gene polymorphism: in primary combined hyperlipidemia in the Egyptian population, Aug 482
Chromatography, high performance liquid. *See* High performance liquid chromatography
Chromosomal abnormalities: deletion of 18p syndrome, July 436
Cidofovir: for herpes simplex virus infection, Aug 455
Citrulline: in cancer detection, Oct 627
Clinical and Laboratory Standards Institute (CLSI): *Application of a Quality System Model for Laboratory Services; Approved Guideline,* March 152; global application of documents of, July 440; *Methods for Antimicrobial Dilution and Disk Susceptibility Testing of Infrequently Isolated Fastidious Bacteria; Approved Guideline—Second Edition,* June 374; *Procedures for the Erythrocyte Sedimentation Rate Test; Approved Standard—Fifth Edition,* Dec 749; *Quantitative D-dimer for the Exclusion of Venous Thromboembolic Disease; Approved Guideline,* Aug 503; *Quantitative Molecular Methods for Infectious Disease; Approved Guideline—Second Edition,* March 183; StatisPro Software, Jan 54; *Validation and Verification of Tubes for Venous and Capillary Blood Specimen Collection; Approved Guideline,* April 251
Clinical chemistry. *See* Chemistry
Clinical Laboratory Improvement Amendments of 1988 (CLIA '88): and digital pathology regulation, Oct 588; measuring the application of quality system essentials in Vermont clinical laboratories, March 152
Clinical laboratory scientists: ASCP wage survey for 2010, March 143
Clinical laboratory technicians: ASCP wage survey for 2010, March 143
Clostridium difficile: molecular diagnostics and active screening for health care-associated infections, May 271, July 443(letter)
Cold agglutination: red cell histogram and the dimorphic red cell population, May 300, 306
Collagen: in systemic sclerosis, Sept 562
College of American Pathologists (CAP): and digital pathology regulation, Oct 588

Collision tumor: primary central nervous system B-cell lymphoma and anaplastic astrocytoma, June 324
Colorectal neoplasms: effects of storage time of tissue from on the detection of K-*ras* gene, Aug 478
Communications: communicating change to laboratory customers, July 403
Congenital adrenal hyperplasia: and testicular tumor, Oct 584
Consistence check: in autoverification system, Nov 670
Containers: *vs* specimens, April 245
"Continuing Education Update" series: accurate international normalized ratio using local verification and calibration, March 176; andrology and fertility assessment, Jan 41; autoantibodies as biomarkers in cancer, Oct 623; autoimmune hepatitis, April 224; avian influenza (H5N1) update, May 291; clinical applications of platelet antibody and antigen testing, Nov 687; component therapy in blood transfusions, April 235; fascioliasis due to *Fasciola hepatica* and *Fasciola gigantica* infection, Feb 107; gastrointestinal anthrax in New Hampshire, a 2009 case report, June 363; (1-3)-β-D-glucan assay, Nov 679; iodine deficiency, Dec 744; management of inpatient hyperglycemia, July 427; red cell histogram and the dimorphic red cell population, May 300; standardized assessment of the HER2 status in breast cancer by immunohistochemistry, Aug 459; systemic sclerosis update, Sept 562; testing for toxic elements with focus on arsenic, cadmium, lead, and mercury, Dec 736
Contrast interference: false results in the detection of monoclonal components using capillary electrophoresis, Oct 602
Coronary artery disease (CAD): association between estrogen receptor-α PvuII and XbaI gene polymorphisms with extracranial carotid stenosis, Nov 663; association study of −1131T>C single nucleotide polymorphism of apolipoprotein A5 gene with, June 350
Coronary heart disease (CHD): a single nucleotide polymorphism -1131T>C in the apolipoprotein A5 gene modulates the levels of triglyceride, March 171
CPT coding. *See* Current Procedural Terminology (CPT) codes
Creatinine: serum cystatin C accompanied by a normal level of serum, in pediatric patients with chronic kidney disease, Sept 549
Critical value check: in autoverification system, Nov 670
Cross infections. *See* Nosocomial infections
Cryoprecipitate: component therapy in blood transfusions, April 239
C-terminal PTH-RP: for humoral hypercalcemia of malignancy screening, Dec 726
Current Procedural Terminology (CPT) codes: in surgical pathology, April 242, June 376(letter)
Cushing's syndrome: urinary prostate-specific antigen is elevated in female patients with, Feb 102
CXCL10 (IP-10): decreased circulating level in parallel with lack of associated genetic variation in southeastern Iranian post-transfusion occult HBV-infected patients, July 423
Cystatin C: serum, accompanied by a normal serum creatinine level in pediatric patients with chronic kidney disease, Sept 549
Cysteine: reversed-phase HPLC fluorimetric method for simultaneous determination of homocysteine-related thiols in different body fluids, Nov 657
Cysteinylglycine: reversed-phase HPLC fluorimetric method for simultaneous determination of homocysteine-related thiols in different body fluids, Nov 657
Cystic fibrosis: newborn screening for, Oct 595
Cystic fibrosis transmembrane conductance regulator (*CFTR*) gene: in newborn screening for cystic fibrosis, Oct 596
Cytochrome P450 genes: CYP1A1*2C polymorphism frequency in patients with leukemia in the Iranian population, April 220
Cytogenetics: ASCP vacancy survey for 2011, April 205; deletion of 18p syndrome, July 436
Cytokines: in systemic sclerosis, Sept 568
Cytology: ASCP vacancy survey for 2011, April 201
Cytomegalovirus: PCR for the detection of viremia caused by, and monitoring therapy in immunocompromised patients, June 339
Cytopathology teaser, July 387, Sep 515
Cytotechnology: ASCP wage survey for 2010, March 146

D

Daley, Anne T: on continual quality improvement guideline, Nov 699
D-dimer: for the exclusion of venous thromboembolism, Aug 503
Deletion of 18p syndrome, July 436
Delta check: in autoverification system, Nov 669
Derioni, Chiara: on erythrocyte sedimentation rate test standard, Dec 749
Dermatophytosis: new contrast stain for the rapid diagnosis of pityriasis versicolor and, Nov 649
Developing countries: bacterial flora of fomites in a Nigerian multi-disciplinary intensive care unit, July 411; CD4-T-lymphocyte reference ranges in Uganda, Feb 94; screening for intestinal parasites in elective surgery patients in endemic areas, Aug 469; setting up a standardized peripheral blood mononuclear cells processing laboratory to support multi-center HIV/AIDS vaccine and intervention trials, Dec 711; strengthening public laboratory service in sub-Saharan Africa, a Uganda case study, Dec 719
Development and Use of Quality Indicators for Process Improvement and Monitoring of Laboratory Quality; Approved Guideline, May 314
Diabetes mellitus: fructosamine as a complementary fasting blood sugar test for glycemic control in diabetic patients on hemodialysis, March 168; type 2, vitamin D receptor polymorphisms in southeastern Iranian patients, Jan 32
Diagnosis: *vs* tissue/procedure in CPT coding, April 247. *See also* Molecular diagnostics
Differential count: evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 399
Digital pathology: regulatory overview of, Oct 587
Dimorphic red cells: red cell histogram and the population of, May 300
Direct antiglobulin test: for autoimmune hemolytic anemia, Oct 581
Discrimination analysis: of mass spectrometry proteomics for lung adenocarcinoma detection, June 344
Disseminated intravascular coagulation (DIC): and component therapy in blood transfusions, April 238
DNA methylation: *hMLH1* gene is not methylated in osteosarcoma, May 280
Drug monitoring, therapeutic. *See* Therapeutic drug monitoring
Drug resistance: human immunodeficiency virus infection and resistant herpes simplex virus, Aug 452. *See also* Methicillin-resistant *Staphylococcus aureus*
Dubrowny, Nancy: on blood collection tube guideline, April 251
Dysgenesis: testicular, July 391

E

"Editorial": "Time to Say Goodbye," Oct 593
Education: importance of the educational environment in the evolution of celiac disease, Aug 497; shortage of laboratory medicine faculty, July 442(letter). *See also* "Continuing Education Update" series
Electronic simulated data validation: in autoverification system, Nov 670
Electrophoresis, capillary. *See* Capillary electrophoresis
Embolus: fulminant cardiopulmonary fungal infection in heart transplant recipient, Jan 6
Emerging infectious diseases: review of methods for the identification of Zygomycetes with an emphasis on advances in molecular diagnostics, May 260
Endocarditis: infective, due to optochin-resistant *Streptococcus pneumoniae,* Sept 536
Endothelial cells: in systemic sclerosis, Sept 565
Endothelial progenitor cells: in systemic sclerosis, Sept 565
Endothelin: in systemic sclerosis, Sept 565
Entamoeba histolytica: screening for intestinal parasites in elective surgery patients in endemic areas, Aug 469, 470, 471
Enterococcus faecalis: molecular diagnostics and active screening for health care-associated infections, May 270
Enterococcus faecium: molecular diagnostics and active screening for health care-associated infections, May 270
Enzyme immunoassay (EIA): VITROS Immunodiagnostics Products Anti-HIV 1+2 Assay as rapid and reliable method for HIV screening, April 209
Eosinophil cationic protein: in children with respiratory allergies, July 419
Erythroblasts: in acute erythroid leukemia, Nov 644
Erythrocyte count. *See* Red blood cell (RBC) count
Erythrocytes. *See* Red blood cells (RBCs)
Erythrocyte sedimentation rate test: CLSI standard for, Dec 749
Erythroleukemia, Nov 644
Estradiol: and fertility assessment, Jan 47
Estrogen receptor: association between estrogen receptor-α PvuII and XbaI gene polymorphisms with extracranial carotid stenosis, Nov 663; digital pathology regulation, Oct 589, 590

F

Factor VIII: in Type 3 von Willebrand disease, Dec 708
Famciclovir: for herpes simplex virus infection, Aug 455
Fasciola gigantica: fascioliasis due to, Feb 107
Fasciola hepatica: fascioliasis due to, Feb 107

Fascioliasis: due to *Fasciola hepatica* and *Fasciola gigantica* infection, Feb 107
Fasting blood sugar test: fructosamine as a complementary test for glycemic control in diabetic patients on hemodialysis, March 168
"Featured Articles": absolute quantitation of different genotypes of hepatitis C virus RNA in clinical samples by a modified real-time PCR method, June 333; American Society for Clinical Pathology's 2010 wage survey of U.S. clinical laboratories, March 141; American Society for Clinical Pathology's 2011 vacancy survey of U.S. clinical laboratories, April 199; digital pathology regulatory overview, Oct 587; evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 395; four qualitative third-generation HIV antibody assays and the fourth-generation Abbott HIV Ag/Ab Combo Test, Sept 523; molecular diagnostics and active screening for health care-associated infections, May 267; new contrast stain for the rapid diagnosis of dermatophytosis and pityriasis versicolor, Nov 649; N-terminal-pro-B-type natriuretic peptide as a screening tool for identifying pediatric patients with congenital heart disease, Feb 75; setting up a standardized peripheral blood mononuclear cells processing laboratory to support multi-center HIV/AIDS vaccine and intervention trials, Dec 711; standardized assessment of the HER2 status in breast cancer by immunohistochemistry, Aug 459; tuberculosis testing with tuberculin skin tests and interferon gamma release assays, Jan 11
Fecundability, Jan 41
Fernandes, Helen: on quantitative molecular testing guideline, March 183
Fertility: andrology and assessment of, Jan 41
Fetomaternal hemorrhage: "Test Your Knowledge," May 316
α Fetoprotein: in seminoma, July 390
Fibroblasts: in systemic sclerosis, Sept 568
Fine, Glen: on StatisPro software, Jan 54
Fingernails: testing for toxic elements with focus on arsenic, cadmium, lead, and mercury, Dec 736
Flow cytometry: clinical applications of platelet antibody and antigen testing, Nov 687; panel reactive antibody using pooled lymphocytes for both HLA class I and II antibodies, Jan 17
FLT3 gene: acute myeloid leukemia associated with near-tetraploid karyotype and mutations in, Sept 540
Fluconazole: detection of antifungal resistance in *Candida* species causing vulvovaginal candidiasis, Feb 87
Fluorescence in situ hybridization (FISH): digital pathology regulation, Oct 588; *vs* immunohistochemistry for HER2 evaluation, Aug 460, 466; in silico evaluation and testing of 16S rRNA probes for *Staphylococcus aureus*, Dec 729
Fluorescent antibody staining: for influenza virus detection, May 294
Folate: and methylene tetrahydrofolate reductase polymorphisms and susceptibility to acute lymphoblastic leukemia in children, May 275
Follicle-stimulating hormone (FSH): and fertility assessment, Jan 47
Fomites: bacterial flora of, in a Nigerian multi-disciplinary intensive care unit, July 411
Food and Drug Administration (FDA): and digital pathology regulation, Oct 588
Formalin-fixed paraffin embedded tissues: effects of storage time of colorectal cancer tissue on the detection of K-*ras* gene, Aug 478
Foscarnet: for herpes simplex virus infection, Aug 455
Fowler's solution, Dec 739
Free radicals: "Luminaries," Nov 697
Fructosamine: as complementary fasting blood sugar test for glycemic control in diabetic patients on hemodialysis, March 168
Fungi. *See* Mycology

G

Gastrointestinal tract: gastrointestinal anthrax in New Hampshire, a 2009 case report, June 363; improved histologic identification of *Helicobacter pylori* by immunohistochemistry using a new Novocastra monoclonal antibody, Jan 35
Gene probe assay: for mycobacteria species identification, Oct 612
Genetic polymorphism. *See* Polymorphism, genetic
Genital ulcers: herpes simplex virus infection as cause of, Aug 452
Genotyping: absolute quantitation of different genotypes of hepatitis C virus RNA in clinical samples by a modified real-time PCR method, June 333; association between estrogen receptor-α PvuII and XbaI gene polymorphisms with extracranial carotid stenosis, Nov 663; of human platelet antigens, Nov 689
Germ cell tumors: seminoma, July 388
Gestational trophoblastic diseases, Feb 71
(1-3)-β-D-Glucan assay, Nov 679
Glucose-6-phosphate dehydrogenase (G6PD) deficiency: incidence and association of 563 C/T Mediterranean and the silent 1311C/T G6PD mutations in Egyptian children with, June 355
Glutathione: reversed-phase HPLC fluorimetric method for simultaneous determination of homocysteine-related thiols in different body fluids, Nov 657
Gluten-free diet: importance of the educational environment in the evolution of celiac disease, Aug 497
Glycemic control: fructosamine as a complementary fasting blood sugar test for, in diabetic patients on hemodialysis, March 168; management of inpatient hyperglycemia, July 427
Glycoproteins: and clinical applications of platelet antibody and antigen testing, Nov 687
Gonadotropins: and fertility assessment, Jan 47
Gram's stain: PREVI Color Gram automated staining system on positive blood culture samples, July 414
Granuloma: rare presentation of sarcoidosis, Sept 516
Grenache, David: on StatisPro software, Jan 55
Grindle, Kathleen A: on continual quality improvement guideline, Nov 699
Gross specimen teaser, Feb 67, March 131, April 195, May 259, Aug 451, Oct 579, Nov 643
Growth factors: in systemic sclerosis, Sept 568

H

Hair: testing for toxic elements with focus on arsenic, cadmium, lead, and mercury, Dec 736
Hawker, Charles D: on specimen labeling guideline, Oct 630
Health care-associated infections. *See* Nosocomial infections
Heart: fulminant cardiopulmonary fungal infection in transplant recipient, Jan 6; N-terminal-pro-B-type natriuretic peptide as a screening tool for identifying pediatric patients with congenital heart disease, Feb 75
Heavy metals: testing for toxic elements, Dec 736
Helicobacter pylori: improved histologic identification by immunohistochemistry using a new Novocastra monoclonal antibody, Jan 35
Helminthes: screening for intestinal parasites in elective surgery patients in endemic areas, Aug 469, 471
Hemarthrosis: in Type 3 von Willebrand disease, Dec 708
Hematology: ASCP vacancy survey for 2011, April 202
Hematology analyzers: evaluation of the body fluid application on the Sysmex XE-5000 hematology analyzer, July 395
Hematopoietic stem cell transplantation: for systemic sclerosis, Sept 570
Hemodialysis: fructosamine as a complementary fasting blood sugar test for glycemic control in diabetic patients on, March 168
